

# Palms Day School

## Summer Camp

## NOW ENROLLING

In order to inspire a fun and enriching summer that involves FUN sprinkled with lots of learning, we must start with the interests of the child. At Palms, we dive into the minds of the children and allow them to design the summer of their dreams. What does this mean? The children tell us what they love and what they wonder about and we bring it to life and make their dreams a reality!

This summer we'll be diving deep into projects that start with the broad base of Architecture and Engineering, Inventions and Simple Machines, and move along to Art and Entrepreneurship. Through the children's **curiosity** and **interests** we will **explore** what is designed, and built with our own hands. We will be **celebrating** new life as we **hatch our own chickens** and **grow** our own vegetables for our salsa and chips for snacks. We will be studying artists and putting together a fabulous **art show** like no other to showcase our work and talents. We will be **adventuring daily** and **building friendships** along the way.

It will be **Serious fun**

## Mini Camps

**Building**

**Drama**

**Arts**

**Sports**

**Cooking**

Part Time - Full Time  
Children 5-10 years  
old welcome to apply!
